

**Student**

12th Gr Female (Form 23G)  
 SSN: XXX-XX-9999  
 Test Date: Jul 11, 2006  
 Old Dominion H.S.  
 Hometown DC

# ASVAB SUMMARY RESULTS

Print No.:XXXXX

ASVAB Results	Percentile Scores			12th Grade Standard Score Bands	12th Grade Standard Score
	12th Grade Females	12th Grade Males	12th Grade Students		
<b>Career Exploration Scores</b>					
Verbal Skills	97	95	96		65
Math Skills	22	17	19		42
Science and Technical Skills	81	48	64		53
<b>ASVAB Tests</b>					
General Science	91	81	86		61
Arithmetic Reasoning	43	30	37		47
Word Knowledge	98	95	96		66
Paragraph Comprehension	92	91	91		62
Mathematics Knowledge	14	12	13		37
Electronics Information	13	10	11		38
Auto and Shop Information	53	21	37		45
Mechanical Comprehension	95	76	85		59
<b>Military Entrance Score (AFQT) 57</b>					

**USE OF INFORMATION**

Personal identity information (name, social security number, street address, and telephone number) and test scores will not be released to any agency outside of the Department of Defense (DoD), the Armed Forces, the Coast Guard, and your school. Your school or local school system can determine any further release of information. The DoD will use your scores for recruiting and research purposes for up to two years. After that the information will be used by the DoD for research purposes only.

**MILITARY ENTRANCE SCORES**

The **Military Entrance Score** (also called AFQT, which stands for the Armed Forces Qualification Test) is the score used to determine your qualifications for entry into any branch of the United States Armed Forces or the Coast Guard. The **Military Entrance Score** predicts in a general way how well you might do in training and on the job in military occupations. Your score reflects your standing compared to American men and women 18 to 23 years of age.

**EXPLANATION OF YOUR ASVAB PERCENTILE SCORES**

Your ASVAB results are reported as percentile scores in the three highlighted columns to the left of the graph. Percentile scores show how you compare to other students - males and females, and for all students - in your grade. For example, a percentile score of 65 for an 11th grade female would mean she scored the same or better than 65 out of every 100 females in the 11th grade.

For purposes of career planning, knowing your relative standing in these comparison groups is important. Being male or female does not limit your career or educational choices. There are noticeable differences in how men and women score in some areas. Viewing your scores in light of your relative standing both to men and women may encourage you to explore areas that you might otherwise overlook.

You can use the **Career Exploration Scores** to evaluate your knowledge and skills in three general areas (Verbal, Math, and Science and Technical Skills). You can use the **ASVAB Test Scores** to gather information on specific skill areas. *Together, these scores provide a snapshot of your current knowledge and skills.* This information will help you develop and review your career goals and plans.

**EXPLANATION OF YOUR ASVAB STANDARD SCORES**

Your ASVAB results are reported as standard scores in the above graph. Your score on each test is identified by the "X" in the corresponding bar graph. You should view these scores as *estimates* of your true skill level in that area. If you took the test again, you probably would receive a somewhat different score. Many things, such as how you were feeling during testing, contribute to this difference. This difference is shown with gray score bands in the graph of your results. Your standard scores are based on the ASVAB tests and composites based on your grade level.

The score bands provide a way to identify some of your strengths. Overlapping score bands mean your true skill level is similar in both areas, so the real difference between specific scores might not be meaningful. If the score bands do not overlap, you probably are stronger in the area that has the higher score band.

The ASVAB is an aptitude test. It is neither an absolute measure of your skills and abilities nor a perfect predictor of your success or failure. A high score does not guarantee success, and a low score does not guarantee failure, in a future educational program or occupation. For example, if you have never worked with shop equipment or cars, you may not be familiar with the terms and concepts

assessed by the Auto and Shop Information test. Taking a course or obtaining a part-time job in this area would increase your knowledge and improve your score if you were to take it again.

**USING ASVAB RESULTS IN CAREER EXPLORATION**

Your career and educational plans may change over time as you gain more experience and learn more about your interests. *Exploring Careers: The ASVAB Career Exploration Guide* can help you learn more about yourself and the world of work, to identify and explore potential goals, and develop an effective strategy to realize your goals. The *Guide* will help you identify occupations in line with your interests and skills. As you explore potentially satisfying careers, you will develop your career exploration and planning skills.

Meanwhile, your ASVAB results can help you in making well-informed choices about future high school courses.

We encourage you to discuss your ASVAB results with a teacher, counselor, parent, family member or other interested adult. These individuals can help you to view your ASVAB results in light of other important information, such as your interests, school grades, motivation, and personal goals.
